\$6

UP TO 20KG

\$270

PER TONNE

ENGINEERED TIMBER *Recycling*

Save Money & the Environment

Engineered Timber \$270 per tonne V's Landfill \$505 per tonne

By pre sorting your load and knowing what timber items are classed as 'Engineered Timber' helps save our environment, saving items from landfill and saves you money. The Australian owned reDirect Recycling has been investing in infrastructure and reclaiming materials that would otherwise go to landfill, reducing waste and creating materials for beneficial reuse. reDirect Recycling achieves recovery rates in excess of 98% creating a range of recycled products. By diverting waste from landfill, you are helping to drive Australia towards a circular economy.
